

Webinar

Making GP surgeries Dementia Friendly

WHAT: iSPACE is a successful project addressing the needs of those living with dementia and their carers while in primary care. During the webinar, Katherine Barbour, Wessex AHSN Senior Programme Manager leading the project, will describe the context and outcomes of iSPACE and its transition to CCGs.

The webinar will include:

- Top tips to make your GP practice Dementia Friendly
- Lessons learned from rollout to over 150 surgeries
- Analysis of data collected
- How patients and carers benefited from the improvements

A Q&A session will follow the presentation, with an opportunity to review the web resources.

1. **WHERE:** Thursday 16th November 12.30 to 1.30
2. Click here to join the online event (<http://bit.ly/2zmv6rB>)
3. Enter your details and the Event Password **0880**
4. Click 'Join Now'
