1 INTRODUCTION

1.1 The Orthopaedic Direct Listing Policy enables patients to be added to the waiting list by Extended Scope Practitioners (ESPs) employed within the Dorset MSK Interface Service (currently operational as the Orthopaedic Medicine Service (OMS) and Dorset Orthopaedic Treatment Service (Dorset OTS)), as agreed by Royal Bournemouth and Christchurch Hospitals NHS Foundation Trust (RBCHFT) and Dorset County Hospital NHS Foundation Trust (DCHFT)Orthopaedic Consultants, for specific orthopaedic conditions/operations.

1.2 This is an agreement between:

- RBCHFT and OMS
- DCHFT and Dorset OTS

2 AIMS AND OBJECTIVES

2.1 To enable ESPs to direct list patients seen in the Dorset MSK Interface Service for Elective Orthopaedic Procedures for RBCHFT and DCHFT Consultants.

2.2 To ensure a smoother patient care pathway by allowing ESPs to direct list (rather than the patient having to be reviewed again in secondary care, prior to listing).

2.3 To reduce outpatient waiting times and thereby assist RBCHFT and DCHFT in the achievement of the 18 week pathway.

3 DIRECT LISTING PATHWAY

3.1 RBCHFT and OMS Direct Listing Pathway

- Patient seen by an ESP at OMS where decision to admit (DTA) is taken (Appendix 3);
- ESP can DTA and direct list for conditions and consultants for which they have been signed off (Appendix 1);
- TCI Card completed and appropriate screening form given to the patient. Patient returns screening questionnaire (Appendix 4) to clinician;
- TCI card, referral letter and screening questionnaire sent to RBCH within 7 days of the patient being seen in clinic;
- Referral to be emailed to Health Records via secure email;
- Those referrals should reach Health Records no later than 9 weeks into the patients 18 week RTT pathway.

3.2 DCHFT and Dorset OTS Direct Listing Pathway

- Patient seen by an ESP at Dorset OTS where decision to treat (DTT) is taken;
- ESP add patients to the waiting list for conditions and consultants for which/whom they have been accredited (Appendix 2);
• DTT card and referral letter sent to relevant consultant’s secretary at DCHFT within 3 days of the patient being seen in clinic (Appendix 3);

• Referral and Dorset OTS consultation letter to be emailed to DCHFT Health Records via secure email to be filled in the patient’s notes;

• Consultants to sign of DTT cards once they have been received within 7 days of receipt and to send to 18 week team;

• 18 week team to create pathway, start date of the pathway being the date of DTT;

• Admissions department will send out screening questionnaires when patient added to waiting list.

3.3 Exceptions to Direct Listing

• Where direct listing is not in the best interests of the patients i.e. where a second opinion from a Consultant is deemed necessary;

• Any condition for which an ESP is not accredited or signed off to list for;

• A patient requests a treatment under a Consultant for whom the ESP is not accredited for or has not been signed off to list for.

4 RESPONSIBILITY

4.1 Consultant Responsibilities

• To sign off TCI / DTT cards, once they have been received from the interface service, within 7 days of those cards being received;

• To discuss with the relevant ESP if a direct listed patient is not deemed to have been appropriately listed;

• To review the suitability of the direct listing process and reserve the right to withdraw their consent to it.

4.2 ESP Responsibilities

• List patients for conditions or procedures for the consultants they have been signed off for;

• Liaise with those Consultants with regard to any listings on which they require a Consultant opinion.

• To complete TCI cards and ensure the completion, by the patient, of the appropriate screening questionnaire (RBCHFT);

• To complete DTT cards (DCHFT);

• To ensure a referral letter will be available to accompany the TCI / DTT card;

• To refer patients to a secondary care outpatient clinic when Direct Listing is inappropriate (see 3.3).
5 TRAINING

5.1 ESPs eligible to list will have undertaken specific ESP training and will regularly liaise with the Consultants to whom they are responsible.

6 PROCESS FOR MONITORING COMPLIANCE WITH THE POLICY

6.1 The following aspects of the service will be audited at 6 months.

- Number of patients being directly listed from the interface service;
- How many weeks into the patient 18 week RTT pathway the patients are being referred from the interface service;
- Number of patients, who have been directly listed from the interface service, who are cancelled on the day of surgery.

7 APPROVAL, IMPLEMENTATION AND REVIEW

7.1 The policy will be reviewed on an annual basis. It will be shared Trust wide via publishing on the intranet policies page. In addition, it will be shared via the following forums:

RBCHFT
- Orthopaedic Management Team Meeting
- Directorate Meeting
- OMS-RBCH Meeting
- Screening / Pre-Assessment Meeting
- Therapy Clinical Team Lead Meeting
- Local Commissioners

DCHFT
- Orthopaedic Department Meeting
- Surgical Division Meeting
- Screening / Pre-Assessment Meeting
- Therapy Clinical Team Meeting
- Dorset OTS
- Local Commissioners
