Improve the health and wellbeing of the population locally

Support people to make the informed choices about their health and wellbeing.

Develop services that meet the needs of everyone, that are safe and support people's wellbeing.

Work alongside our partner organisations to ensure that people in Dorset have equitable access to services.

Work together as a team

Ensure we connect and work together as teams within the organisation and more widely with our partners to strengthen our approach in Dorset.

Engage and involve people in decisions which affect them.

Seek to understand the needs of others and help to manage their expectations.

Develop the way we work

Treat everyone with dignity and respect.

Look at ways we can work differently to create an even better working environment.

Celebrate our successes and learn from each other.
