I confirm that I have considered the implications of this report on each of the matters above, as indicated	✓		

1. Introduction

- 1.1 NHS England requires Clinical Commissioning Group Chief Officers (COs) to give assurance about the stewardship of their organisations. COs should include the governance statement in their annual report and accounts. This requirement is set out in legislation under the National Health Services Act 2006 (amended).
- 1.2 The governance statement records the stewardship of the organisation to supplement the accounts. The statement draws together assurances and evidence on governance, risk management and internal control via the CCGs assurance framework.
- 1.3 The Chief Officer has responsibility for maintaining a sound system of internal control that supports the achievement of the CCG's policies, aims and objectives, whilst safeguarding public funds and departmental assets for which he is personally responsible, in accordance with the responsibilities assigned to him in Managing Public Money. He is also responsible for ensuring that the CCG is administered prudently and economically and that resources are applied efficiently and effectively.
- 1.4 This report provides the latest update position in relation to the work to complete the Annual Governance Statement for 2018-19.

2. Annual Governance Statement

- 2.1 The attached template is based on the revised guidance issued by the Department of Health and NHS England.

3. Conclusion and Recommendations

- 3.1 The Governing Body is asked to **approve** the Chief Officer's Annual Governance Statement (Appendix 1).
- 3.2 There are no lapses in assurance identified to date through the work of the committee structure that will impact on the Chief Officer's declaration.
- 3.3 All risks and gaps in assurance have been clearly documented throughout the year and reported to the Quality Group, Audit Committee (previously Audit and Quality Committee), Directors' Performance meetings and the Governing Body. Regular reports have been provided to committees and groups on operational issues highlighted by internal audit.
