I confirm that I have considered the implications of this report on each of the matters above, as indicated	✓		

Initials: SH

1. Introduction

- 1.1 The framework provides assurance to the Governing Body of the controls that are in place to mitigate the key risks that could impact on the CCG's delivery of its strategic objectives.
- 1.2 This report provides the current version (Appendix 1) of the Governing Body Assurance Framework (GBAF) for information.
- 1.3 The Directors' Performance meeting has operational responsibility for maintaining the Governing Body Assurance Framework (GBAF) with support from the Patient Safety and Risk team.

2. Gaps in Controls and Assurances

- 2.1 No gaps in assurance are currently identified in the Assurance Framework as at 15 October and no gaps have been identified since the previous report.
- 2.2 Changes have started to be made to the GBAF to reflect the changes within the CCG governance structure, primarily the change from the 'Audit and Quality Committee' to the 'Audit Committee' and handing over of assurance to the system-wide Quality Surveillance Group. The Patient Safety and Risk Manager remains in contact with the CCG Corporate Office regarding these changes in responsibilities and changes to the governance structure will be reflected in the GBAF once agreed.

3. Strategic risk scoring

- 3.1 In February 2019 the strategic risks of the CCG were scored for the first time following an audit recommendation in 2017/18. The risks were scored using the NPSA risk matrix approach and the scoring is now evident on the GBAF.
- 3.2 The assessment of the strategic risk score for Q1 2019/20 has now been added to the GBAF. The scores have not changed since Q3 2018-19. This will be repeated in October 2019 for Q2 2019/20.

4. Recommendation

- 4.1 The Governing Body is asked to **note** the Governing Body Assurance Framework format and contents.
