Q1:

I'm looking into whether Dorset Medicines Advisory Group produces a guideline document detailing the DVT anticoagulation pathway, other than what is on the formulary itself.

I currently have the (attached) document dated 2018. Could you please confirm if this is still the correct pathway, or would you be able to provide me with a copy of an updated document?

Response:

At the time of your request, the document dated 2018 was the most recent pathway. However, a document from NICE was in the approval process and this has now been uploaded to replace the one you attached to your request, which has now been archived.

The updated document can be found via the following link.
